- ▲ STEP UP FEATURE

CDP-CX50

If you hate the process of opening CD jewel boxes. If you can't remember where you put your discs. Or if you're simply looking for greater convenience or a touch of luxury, consider the Sony CDP-CX50. Its 50-disc tray can hold more than two days of non-stop music. Its Jog Dial makes access quick and easy. And its special "Plus One" slot accommodates whatever extra CDs you might have lying around!

FEATURES

- ▲ **INTERNAL STORAGE FOR 50+1 DISCS** means you may never need to open another CD jewel box
- ▲ **"PLUS ONE" INSTANT PLAY SLOT** makes it easy to pop in an extra disc for casual playback; extra-wide loading slot is easy to use; perfect for playing CDs that your friends bring over or discs you've brought in from the car
- **FRONT PANEL JOG DIAL** rotates through the discs for fast, easy selection
- **PULSE D/A CONVERTER** minimizes zero-cross distortion, considered by researchers to be the most audible distortion in CD players; the result is remarkably smooth, open sound—even during delicate quiet passages
- **4X OVERSAMPLING DIGITAL FILTER** for better stereo imaging, greater accuracy
- **DIRECT DIGITAL SYNC™** circuitry minimizes the time-base errors called "jitter" for cleaner, more transparent musical frequencies
- **HYBRID CONVERTER DESIGN** places the digital filter and D/A converter on a single IC chip for shorter signal paths
- **MULTI-DISC 32-STEP PROGRAMMING** plays up to 32 songs or entire discs in any sequence you choose, from any of the 200 discs you choose
- **FOUR PLAY MODES** (Continue 1 or All Discs, Shuffle 1/All, Program)
- **THREE REPEAT MODES** (One or All Discs, One Track) for continuous music of your choice
- **INFORMATIVE, FLUORESCENT DISPLAY** can show disc number, track number and elapsed time, or Group File name
- **FLAT TOP DESIGN** enables other components to be stacked with the Changer
- **REMOTE COMPATIBLE**—includes an infrared "eye" compatible with the system remote control that comes with Sony wireless remote AM/FM Receivers
