CSI-116

Model: GEN-COMPUTERS

No. 7

Subject: Part number for monitor Information Disk

Date: January 30, 1997

Symptom:

(***) Missing settings for some Sony monitors.

The display settings in Windows 95 Control Panel does not have all Sony monitors listed. This may prevent the user from setting the correct video mode.

Solution:

Use the Monitor Information files available on a diskette to supplement the Control Panel list.

The part number for the diskette is 4-056-722-01
