

Setting Up AV Cordless System

Operating Instructions

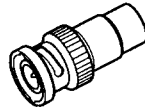

IFV-TR1KK

Sony Corporation © 1997 Printed in Japan

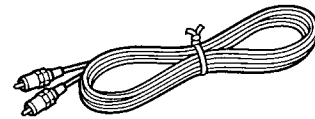

- The IFV-TR1KK is a kit containing dedicated accessories for the IFV-TR1K AV Cordless System. Read both this manual and the instructions for the IFV-TR1K AV Cordless System at the same time.
- Check that you have the following items:

Velcro strips × 2 sets

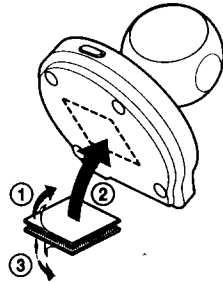

Plug adaptor
(BNC plug ↔ phono jack) × 2

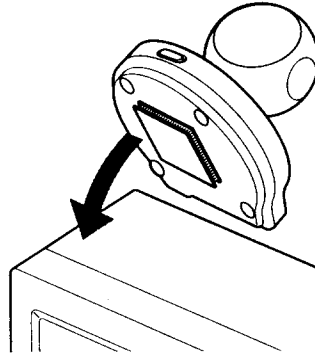

Video connecting cord (phono plug
↔ phono plug, 1.5m) × 1

Using the Velcro strips

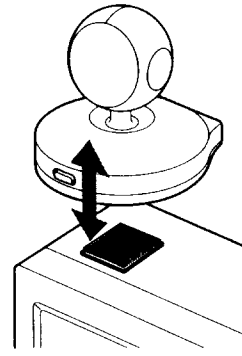

1 Remove the blue paper from the Velcro strips and stick them on the bottom of the unit.

2 Set the unit on the TV, a CCD camera, etc.

3 You can attach and detach the unit easily.

Note

To clean the spot where you will stick on the Velcro strips of dirt and oily fingerprints, wipe with a soft cloth slightly moistened with soap, water, etc.

Connecting the unit with the plug adaptor

You can use the plug adaptor when you connect the IFV-TR1K with a monitor and CCD camera that have BNC jacks.
