

PCV-200 Specifications

Video capture hardware and video editing software are standard on PCV-200, as is two-way videoconferencing capability. Simply plug-in your Sony Handycam® or other camcorder to the convenient, front-mounted A/V connectors to join the digital renaissance. An integrated TV Tuner lets you watch your favorite programs onscreen while balancing your checkbook in Quicken® or while checking your e-mail.

Like all Sony PCs, the software you want is pre-installed on PCV-200, including Windows® 95 and leading productivity, entertainment and reference titles. Furthermore, a limited, one-year warranty entitles you to Sony's world-class, 24/7 technical support and At-Home service (certain restrictions apply).

Processor: 233 MHz Pentium® II Processor with MMX™ Technology

L2 Cache Memory: 512 KB Pipeline Burst SRAM

Standard RAM: 32 MB SD-RAM; Expandable to 384 MB

Hard Drive: 4.3 GB

Floppy Disk Drive: 3.5" 1.44 MB Floppy Disk Drive

Zip Drive: 100 MB Internal 3.5" Zip Drive

CD-ROM Drive: 24X CD-ROM Drive (maximum performance)*
