

Where to obtain a Mac Adapter for a Sony Monitor?

1. If this is a Sony monitor (purchased new or refurbished) and the list below shows that a Mac Adapter is supposed to be included but was not, please call Ruppman at 1-800-352-SONY (7669) for a free adapter. If the list shows that a Mac Adapter is not included with the monitor, please call the Kansas City Parts Center at 1-800-488-7669 and order the appropriate part number from the list below.
2. If you are a reseller and require multiple Mac Adapters, please send an E-mail of the request for the adapters along with the store name, contact person, address and phone number to:
cbernier@comac.com
3. If the original adapter has been lost or broken, call Ruppman at 1-800-352-SONY (7669) and indicate the model of the monitor and whether a 3-res or 5-res adapter is needed (refer to list below).
4. The following list shows the type of MacAdapter used with Sony monitor models and whether or not the adapter is included:

Sony Monitor	Macintosh Adapter Model Number
---------------------	---------------------------------------

CPD-15SX1	Not included	3-res (1024 Multi-res)
CPD-100SX	Not included	3-res (1024 Multi-res)
CPD-15SF1	Not included	3-res (1024 Multi-res)
CPD-15SF2	Included	3-res (1024 Multi-res)
CPD-100SF	Included	3-res (1024 Multi-res)
CPD-200SX	Not included	3-res (1024 Multi-res)
CPD-17SF1	Not included	3-res (1024 Multi-res)
CPD-17SF2	Included	3-res (1024 Multi-res)
CPD-200SF	Included	3-res (1024 Multi-res)
CPD-100ES	Not included	3-res (1024 Multi-res)
CPD-200ES	Not included	3-res (1024 Multi-res)
CPD-100GS	Not included	3-res (1024 Multi-res)

CPD-200GS	Included	5-res (1280 Multi-res)
CPD-20SF2	Included	5-res (1280 Multi-res)
GDM-17SE1	Not included	5-res (1280 Multi-res)
GDM-17SE1/P	Included	5-res (1280 Multi-res)
GDM-17SE2T	Included	5-res (1280 Multi-res)
GDM-200PS	Included	5-res (1280 Multi-res)
GDM-400PS	Included	5-res (1280 Multi-res)
GDM-500PS	Included	5-res (1280 Multi-res)
GDM-20SE1	Not included	5-res (1280 Multi-res)
GDM-20SE1/P	Included	5-res (1280 Multi-res)
GDM-2000TC	Included	5-res (1280 Multi-res)
CPD-300SFT	Included	5-res (1280 Multi-res)
GDM-W900	Included	5-res (1280 Multi-res)

MACINTOSH NOTE: It may also be necessary to do a P-RAM clear on a Macintosh. Hold down the Apple key, the Option Key, the P Key and turn on the power to do a P-Ram clear.

If requiring an older MacAdapter, select the appropriate model number from the list below:

Finished Goods #	Part #	Description
-------------------------	---------------	--------------------

MacView "I" (See Note)	T-9985-647-1	1-Dial & 9-DIPs
MacView "II"	1-770-082-11	2 x 8-DIPs = 16
MacView LX	1-774-332-11	1 x 6-DIPS = 6
MacView LX "II"	1-774-626-11	1 x 8-DIPS = 8

*NOTE: The MacView I adapter must be used with a Mac G3 computer.
If the monitor did not come with a MacView I adapter, follow these instructions to acquire this adapter.
Call Kansas City parts at 1-800-488-7669 and refer to Part Number: T-9985-647-1. This is a no charge item as long as this is not a replacement of the same item due to loss or breakage.*

When using a Macview I Adapter with Mac G3 computer, the Adapter DIP Switch settings must be set. Use the chart below to determine the settings:

DIP Switch Settings: 1-8 off, 9 on

Rotary Dial Setting:

	Resolution	Dial Setting
13" RGB monitors	640x480	J
14" RGB monitors	640x480	J
16" Color monitors	832x624	F
19" Color monitors	1024x768	D
21" Color monitors	1152x870	P

*RESOLUTION NOTE: If the monitor and computer are capable of 1600x1200 resolution then a Macview I adapter will be required.
Set the Macview adapter to setting G on the rotary dial.*
