---

This icon would normally update Quicken 98 to Quicken 99. However, the system is already installed with Quicken 99, so this icon has no purpose. Follow the steps below to uninstall the icon.

1. On the desktop, right-click on the Start button.
2. From the drop-down menu, click Open.
3. Click the Programs folder.
4. Click the Quicken folder.
5. Right-click the Unlock Quicken Deluxe icon.
6. From the drop-down menu, click Delete.
7. At the Confirm File Delete box, click Yes. The icon is now removed from the Quicken menu.
