

PCV-E201 MicroTower

Superior AGP graphics and sound capabilities, fast and easy Internet access, and the built-in technical support of VAIO Space II--Sony's exclusive application interface--are all included with the Sony PCV-E201 VAIO MicroTower Computer.

Users will appreciate the power of its Intel® Celeron processor, which easily handles today's multimedia, educational, entertainment, financial and digital imaging applications. A Sony Trinitron® Multimedia Display* perfectly complements its smooth, true-color 3D graphics and hi-fidelity, dynamic PCI audio.

Available June 1998
