

## **How To Add the Blue Speaker to the Windows 95 Taskbar**

---

To add the speaker to the taskbar on a PCV-70/90/100/120/130/150/200, do the following:

1. Select the Find option from the Windows 95 Start Menu.
2. In the Find Command Line enter AS2TRAY.\*
3. Click on the "Find Now" button.
4. When the file AS2TRAY.EXE appears in the lower window, double-click on it. That will place the blue speaker back on the taskbar.

To add the speaker to the taskbar on a PCV-220/240, do the following:

1. Select the Find option from the Windows 95 Start Menu.
2. In the Find Command Line enter VTRAY.\*
3. Click on the "Find Now" button.
4. When the file VTRAY.EXE appears in the lower window, double-click on it. That will place the blue speaker back on the taskbar.
