- **ONE HOUR POWER BACK-UP WITH NO BATTERY REQUIRED**

ICF-C503

Counter space is at a premium in any kitchen, so Sony designed this advanced clock radio especially to mount above the counter, under a cabinet. All mounting hardware is included to make installation easy. Convenient front controls let you tune in a wide choice of AM or FM radio stations, check the latest forecast on the Weather Band, and even listen to TV shows. Tuning is precise and simple, with a "memory" system that lets you pre-set 20 stations and recall each at the push of a button. There's also a built-in timer to remind you when cooking's done.

FEATURES

- **AM/FM/TV/WEATHER BAND TUNER** gives you access to radio talk and music shows, plus audio from TV channels 2-13, and up to the minute weather from Weather Band channels 1-5
- **DIGITAL SYNTHESIZED TUNER** provides the most accurate drift-free tuning of all available radio stations
- **20 RANDOM STATION MEMORY PRESETS** provides convenient one-button tuning to your choice of AM/FM radio stations, TV audio or Weather Band
- **COUNT DOWN TIMER WITH MEMORY** acts as a built-in timer for food preparation or other uses and recalls last setting
- **UNDER CABINET MOUNTING** saves counter space and is made easy with all mounting hardware included
- **ONE HOUR POWER BACK-UP** retains settings in event of power failure with no battery required
