- * i.LINK is a Sony trademark used only to designate that the unit contains an IEEE 1394 port. All products with an i.LINK port may not communicate with each other.
- ** Processor may be reduced to a lower operating speed under certain conditions.
- *** MHz denotes microprocessor internal clock speed; other factors may affect application performance.
- † GB means one billion bytes when referring to hard drive capacity. Accessible capacity may vary.
- ‡ Due to FCC limitations, speeds of 53 Kbps are the maximum-permissible transmit power levels during download transmissions. Actual data speeds vary depending on the line conditions.
