Introducing the Remote Control

You control your DIRECTV Receiver with TiVo by selecting from a system of easy to use menus. Use the remote control's *navigation arrows*—UP, DOWN, RIGHT and LEFT—to move the blue *highlight bar* (or *highlight*) onto menu items, and to move from screen to screen. Press the SELECT button to choose a highlighted item.

On the screen below, notice the *whispering arrows* that appear beside the highlight bar. These arrows show possible directions you can take.

Page down or page up arrows at the bottom or top of a list indicate more options that aren't currently visible. Use the DOWN arrow to view the next item below what you can currently see. Use the CHAN DOWN button to go down to the next page. CHAN UP shows the previous page.

Glossary of Icons

These appear when you press THUMBS UP or THUMBS DOWN. You can give a program up to three THUMBS UP or three THUMBS DOWN.

These appear when an option—such as automatically scheduling an upcoming program or watching an additional program segment—is available. Press SELECT to choose the option.
