Sony Telecom™

900 MHz

SPP-A940

FEATURES

Cordless Features

- **900 MHZ EXTENDED RANGE** thanks to superior transmission technology; so you can carry your cordless phone further—and still carry on a conversation
- **900 MHZ SOUND QUALITY** sounds less like older cordless phones, more like a corded phone; 900 MHz band is far less crowded, with far less potential interference than conventional 43 - 49 MHz transmission
- **UP TO 7-HOUR TALK TIME, 7-DAY STANDBY** for longer conversations and longer intervals between battery charges
- **BASE-TO-HANDSET PAGING** sends a beep to the handset so you can summon a co-worker or family member or locate a missing handset
- **10-NUMBER SPEED DIALING** for two-step access to frequently dialed numbers

Answering Machine Features

- **TAPELESS, ALL-DIGITAL MESSAGE STORAGE** records both your greeting and incoming messages on IC chips; uses no moving parts for exceptional reliability, 18-minute message capacity
- **VOICE-GUIDED OPERATION** makes it easy to learn the telephone's features; uses built-in voice prompts to take you through initial set-up and operation
- **VOICE TIME/DAY STAMP** records the time of each call after each message
- **PRE-RECORDED GREETING** lets you choose not to record your own greeting
- **ANNOUNCE-ONLY MODE** answers calls without taking messages
- **DIGITAL MESSAGE COUNTER** in the base unit display indicates the number of messages received
- **AUDIBLE MESSAGE INDICATOR** beeps when messages are waiting (on/off switchable)
- **MEMO RECORDING** saves a message for other family members or co-workers to hear
- **2-WAY CONVERSATION RECORDING** lets you record a call for future reference

- **CALL SCREENING AND MESSAGE RETRIEVAL FROM THE HANDSET** enables you to identify a caller before answering and retrieve messages
- **REMOTE MESSAGE RETRIEVAL** lets you collect messages from any pushbutton phone
- **PERMANENT FLASH MEMORY** protects your recorded messages even in the event of a power outage; requires no battery backup
