Sony Telecom™

DIGITAL **900** MHz

CALLERID
with call waiting

SPP-M920

FEATURES

- **2-LINE OPERATION** accesses two separate phone lines from one phone (requires two-line installation from your local telephone company)
- **DIGITAL PRIVACY** digital speech encoding provides secure conversation between the cordless handset and base unit
- **EXTENDED RANGE & SOUND QUALITY** operates in a much higher frequency range than conventional analog cordless phones, which operate between 43-49 Mhz, Sony digital technology provides extended range performance with less noise and interference. Sony digital technology provides consistent, excellent sound quality
- **AUTO CHANNEL HOPPING** automatically scans all available channels and selects the clearest one for your call. During your call, if any interference is encountered, the phone automatically hops to another channel that offers the clearest reception, without interrupting your conversation
- **CALLER ID WITH CALL WAITING** displays the number/ name of your caller before you pick up, provided you have Caller ID service from the phone company. If your phone company also provides Caller ID with Calling Waiting service, it displays the identity of the caller on call waiting. Also includes an easy-to-read 2-line display and 50-call memory
- **3-WAY CONFERENCE CAPABILITY** allows you to talk simultaneously on both lines with two separate outside parties
- **LIGHTED KEYPAD** allows for easier dialing in the dark
- **DUAL BATTERY CAPABILITY** base unit has the built-in battery charger. You can charge an optional battery (BP-T23) in the base unit
- **7-HOUR TALK TIME & 7-DAY STANDBY** allows longer conversation and longer intervals between charging batteries
- **2-WAY PAGING/INTERCOM** feature lets you talk between handset and base, page signal initiates intercom contact in either direction
- **20 NUMBER SPEED DIALING** provides simple step dialing of the business and personal numbers you call frequently
- **BASE SPEAKERPHONE** feature lets you answer incoming calls at the base
- **LAST NUMBER REDIAL** redials the last number called at a single touch

■ WALL-MOUNTABLE
