- SCAN FUNCTION

VOICE FILE

ICD-30

FEATURES

- **RECORDS ON IC (INTEGRATED CIRCUIT) CHIP** instead of tape, for recordings with distortion-free clarity
- **UP TO 16 MINUTES RECORDING TIME** is available on the integrated circuit chip which may be recorded over and used again
- **TWO SEPARATE MESSAGE FILES** provide separate message areas for different applications
- **UP TO 99 MESSAGES IN EACH FILE** can be recorded before the chip is full
- **RANDOM ACCESS TO ANY MESSAGE** is available with press of a button
- **FULL FUNCTION LCD DISPLAY** provides a highly visible and accurate display of all record/playback functions
- **INSERT FUNCTION** allows additional information to be added to an existing message
- **DIGITAL VOICE OPERATED RECORDING SYSTEM (VOR)** begins recording through the built-in microphone as soon as the unit senses sound and continues recording only when audible sound is present, eliminating soundless passages
- **HOLD FUNCTION** prevents accidental operation while carrying the unit in pocket or briefcase
- **LOW BATTERY INDICATOR** provides a visible signal when battery power is low
- **PLAYBACK VOLUME CONTROL** provides adjustment of playback sound level
- **EARPHONE JACK** allows listening through earphones for privacy or transcription
- **ERASE ONE OR ALL MESSAGES** feature offers the ability to erase a single message, or all recordings on the chip
- **ALARM WITH PERSONAL MESSAGE** alerts the user with a spoken message when a preset time is reached
- **REPEAT FUNCTION** automatically begins playback at the start of the last message heard
- **SCAN FUNCTION** plays a few seconds of the beginning of each recording before moving on to the next in sequence, to help you select the message you wish to hear in its entirety
