Sony Telecom™

DIGITAL **900** MHz

SPP-D900

Features

- **DIGITAL SECURITY** digital speech encoding provides secure conversation between the cordless handset and base units
- **SUPERIOR RANGE & SOUND QUALITY** operates in a much higher frequency range than conventional analog cordless phones, which operate between 43-49 MHz. Sony digital technology provides extended range performance with less noise and interference. Sony digital technology provides consistent, excellent sound quality
- **COMPACT HANDSET** allows for easier portability by belt clip
- **30 CHANNEL AUTO SCAN** system scans the 30 available channels to find the clearest reception; "Channel" button selects a new channel if you encounter interference during a call
- **EXTENDED 7-HOUR TALK TIME & 7-DAY STANDBY** allows longer conversation and longer intervals between charging batteries
- **BASE-TO-HANDSET PAGING** feature sends a beep from the base to the handset, allowing you to signal a co-worker or a family member
- **LAST NUMBER REDIAL** redials the last number called at a single touch
- **OUT-OF-RANGE ALERT** indicates when the handset is out of the useable range of the base unit
- **WALL-MOUNTABLE**
