CAV-2

In the homes of Hollywood producers and the lofts of downtown Manhattan, the world's most advanced custom A/V systems have been operated by computer control. Now it's your turn. The Sony CAV-2 VisionTouch System™ enables you to select sources, tune radio stations, change TV channels, select CDs and record programs, all from your PC desktop. Just grab your computer mouse, sit back and enjoy!

FEATURES

- **COMPUTER CONTROL OF YOUR A/V SYSTEM**—a luxury formerly limited to ultra-expensive custom systems
- **COLORFUL VISIONTOUCH GRAPHIC USER INTERFACE** represents all your control options as beautifully rendered icons in easy-to-use windows; pop-up windows present the controls of each source component, as necessary
- **WINDOWS AND MACINTOSH COMPATIBLE SOFTWARE ON CD-ROM** works with Windows 3.1 or higher, Macintosh System 7.1 or later
- **CD TRACK AND TITLE INFORMATION ON YOUR PC** screen when used with compatible Sony 100-CD and 200-CD changers
- **CD DATABASE** enables you to enter information to classify discs by artist, genre and number, when used with compatible Sony 100-CD and 200-CD changers
- **CD TITLE GRAPHICS** can be loaded from PICT and BMP files, for graphic on-screen disc selection, when used with compatible Sony 100-CD and 200-CD changers
- **AUDIO/VIDEO REMOTE CONTROL** operates televisions, VCRs, satellite receivers, videodisc players and high fidelity components
- **MULTI-BRAND¹ REMOTE CONTROL** already "knows" the remote control codes of many popular brands of audio/video equipment
- **PROGRAMMABLE REMOTE CONTROL** can "learn" the remote control codes of other audio/video equipment
- **CONTROL OF LIGHTING, PROJECTION SCREENS, WINDOW CURTAINS** and other household electrical equipment that operates with compatible, infrared remote control¹

- **MACRO FUNCTION** lets you store and execute up to five command sequences, each of which can have up to ten steps; for example, a single Macro can start the VCR, select Video 1 on the television and A/V receiver, dim the room lights and close the curtains
- **GRAPHIC INTERFACE CUSTOMIZATION** lets you delete, change, and rename icons and buttons—even add new icons from PICT or BMP files
- **SONY S-LINK™ INTERFACE** for advanced operations with compatible Sony audio and video components
- **SONY CONTROL-L (LANC) INTERFACE** for compatible Sony VCRs
- **INFRARED REMOTE REPEATER** for other Sony and non-Sony infrared remote controlled equipment
- **RS-232C INTERFACE** to your computer's modem connector
- **INDICATOR LEDS** on the interface box for power and IR code transmission
