- * i.LINK is a trademark of Sony used only to designate that the unit contains an IEEE1394 port. All products with an i.LINK port may not communicate with each other. Supports high-speed digital video, audio, and data transfer capabilities between compatible Sony i.LINK products.
- ** GHz denotes microprocessor internal clock speed; other factors may affect application performance.
- † GB means one billion bytes when referring to hard drive capacity. Accessible capacity may vary.
- ‡ Due to FCC limitations, 53 Kbps is the maximum transmit power level permitted during download transmissions. Actual data speeds vary depending on the line conditions.
