## KV-32HS500

FD Trinitron® WEGA® Hi-Scan® TV

### KEY TECHNOLOGY

**Hi-Scan 1080i™ Display** Sony's Hi-Scan1080i™ TV's accept the full 1080 interlaced scanning lines (1080i) or 720 progressive scan (720p) from an external HDTV receiver or a compatible high definition digital satellite receiver. It also accepts 480 progressive (480p) scanning lines from compatible DVD video sources.

**Digital Reality Creation™ (DRC™)-Multifunction Circuitry** This Sony proprietary technology displays four times the the picture resolution compared to conventional television for the very best in picture quality.

**CineMotion™Reverse 3-2 Pulldown** Is a fixed algorithm irrespective of source which preserves the integrity of movie film frames to create the best possible image

**DVI-HDTV Interface (Digital Visual Interface)** Has been added for the latest generation in high definition television connectivity. A single wire delivers a full digital uncompressed HD signal that can be received from any DVI set top box.

**Multi Image Driver (MID™-X)** With Sony's **Twin-View™ 2 Tuner Picture and Picture** you can watch 2 full motion pictures side by side. Together, **Twin View**, and Sony's proprietary **Multi Image Driver-X** allows you to view analog along side of HDTV at the same time on the same screen. Also, with MID™-X both picture images are improved to 480 progressive image quality.

### ADDITIONAL FEATURES

#### Specifications

- Component Video Input (Y/Pb/Pr): 2 Rear
- Composite Input: 3 Rear/1 Front
- S Video Input: 2 Rear/1 Front
- RF Input: 2 Rear
- Monitor Out: 1 Rear
- Control S: 1In/1 Out
- DVI-HDTV Interface

#### General

- Power Requirements: AC120V, 60Hz

#### Accessories

##### Supplied Accessories

- Instruction Manual
- Remote Control (RMY-186)
- AA Battery x 2

##### Optional Accessories

- Television Stand:  
SU-36HV1 KV-36HS500  
SU-36HV1 KV-32HS500
